Sta. Clara Ibaba, Batangas City, Batangas

Work Experience

IT Staff • Graphic And Video Designer

MySiteMalixi (intern)

April 2024 – Sept 2024

- Designing banners for business promotions and videos to showcase the business using Canva.
- Creates video tutorials on how to apply SEO in marketing and how it is used in Google Ads.
- Assists marketers in developing and managing business promotions using Facebook Ads Manager.
- Prepares materials and equipment needed by the marketer for upcoming events or meetings.

Front end Developer & Android Developer

BuilDevs

April 2024 – Present

- Developed website designs and layouts using React.js, Vite.js, and Tailwind CSS to ensure efficient front-end workflow and achieve full website responsiveness.
- Collaborated with a development team as a Front-End Developer, specializing in layout design and prototyping using Figma, as well as testing API integration and button navigation flow.
- Drafted Memorandums of Agreement (MOA) and ensured project deliverables met client expectations.
- Utilized software systems such as VSCode, MongoDB, MySQL, Firebase, to build websites
- Used project management tools like Jira to ensure smooth workflow and timely deliverables for students, allowing them to track completed and ongoing features in the system.
- Developed mobile applications using Android Studio with Java as the primary programming language, focusing on manual and hands-on Android app development.
- Utilized Google Maps API and machine learning APIs such as TensorFlow Lite to integrate features into mobile applications, ensuring the system meets client expectations.
- Tested applications by following client-provided test cases to ensure smooth and accurate deployment of the final product.

Skills
